

CHAUTAUQUA FOR NEXT YEAR ASSURED

Enough Season Tickets Engaged And Progressive Business Men Back Guarantee

Before the close of the Chautauqua assurance was given the management that Richmond will be on the list again next year. A conference of those in charge of the work of securing the entertainment resulted in this decision being made. Already 250 season tickets for next year have been signed for. This list is expected to grow rapidly, since many are known to have been enthused this season as never before. However, it is a great undertaking.

Those guaranteeing the Chautauqua next year are as follows: Homer W. Carpenter, E. C. McDougle, E. V. Elder, G. W. Deatherage, W. B. Turley, W. L. Arnold, B. E. Turley and Elmer Deatherage.

The season for the Redpath Chautauqua at Richmond for the year 1920 came to a most successful and illustrious close Wednesday night, when the massive tent was again filled with an enthusiastic audience which greatly appreciated the final program, the character and standard of which was on a par with the previous excellent numbers. It proved a diversion of surprising quality and interest, and the attendance placed Richmond on record as a music and theatrical loving city. This fact has been repeatedly illustrated by the throngs that have characterized almost every day and evening since the opening.

Richmond is one of the smallest cities, considering population, that maintains this high degree of entertainment annually. Yet the patronage has reached and passed the standard. Greater cities recognize the Chautauqua as 'some place to go.' Richmond music and theatrical lovers are fascinated from those instincts, purely, hence the reputation at the city for the finer entertaining arts.

Representatives of the Redpath Chautauqua will, as they are now continuing to do, herald the reputation of Richmond for the big list of lovers of educational lectures and pleasing music of a high calibre; its appreciation of instructing and interesting entertainment will be recorded at a meeting of all officers of the big organization to be held next Sunday at Lexington. Among those who will be there besides the superintendents and managers will be Harry P. Harrison, Chicago, the present cornerstone who directs and conducts the numerous repertoire. Those in connection with both the entertainments and the management of the same are anxious to give a favorable recommendation of the city of Richmond which bespeaks well not only for the city, who all who were in any manner identified in the work of making the Chautauqua the success it was. It is meritorious throughout, to say the least.

The entertainment on the closing night was characterized by the Swiss singers and yodlers and a powerful lecture on "Human Efficiency" by Ralph Parlette, who has to be heard to be appreciated to the full extent.

LAY CORNERSTONE THURSDAY AT 3:30

Imposing Service Marking Progress of Beautiful Presbyterian Edifice Here

The laying of the cornerstone for the new Presbyterian church, West Main street, Thursday afternoon, marking the progress of the beautiful edifice to interesting point, will represent the work of Masons on the manner and customs of the craft and there will be records laid beneath the stone, turned to with great interest in the years to come by eager hands, desirous of learning the details of the manner in which the work was done, those who did it, and the environments of the situation generally.

These records will show that on Thursday, July 8, 1920, the meeting of the Richmond Lodge of Masons, No. 25, which had the work in charge, took place at 3 o'clock at their temple, where the general assemblage occurred representing members of the local lodge and those from other Masonic lodges of Madison county, after which the pilgrimage to the church was taken up. The ceremonies were begun at 3:30 o'clock, with Rev. R. L. Telford, pastor of the church; Dr. O. O. Green, of the Baptist church; Rev. Homer G. Carpenter, of the First Christian church, and Robert R. Burnam, of this city, in charge. Dr. Carpenter was one of the chief speakers. Mr. Burnam, who is past grand master of the Masonic lodge, had charge of the work of placing the stone, together with the interesting data. Rev. O. O. Green spoke and Dr. Telford has insisted upon the program being carried out accordingly.

The Masonic service was to have been at the hands of the present Masonic grand master, Henry S. McElroy, of Lebanon, who has informed the local lodge of his inability to be present. Mr. Burnam was chosen as his successor—a man not only well versed in the matter of Masonic work, but one capable in every way to conduct the rites both of the church and lodge properly.

The building, which will be purely and strictly gothic style, will be completed within a reasonable time, Contractor Burnam stating that he had been assured of all his material, and much of this is already on hand.

The event will be intensely pleasing to many, especially the members of the church, who well remember the exertion required to raise funds to insure the character of building desired. It was decided that the new church should remain for long as a monument to the earnest workers and its apparent pretentiousness is minimized when facts dealing with the strict nature of the work are recognized upon its completion. It was the wish of many of the members to erect a church that would be the scene of gatherings of their children and their grandchildren as well, hence the effort at half way building was abandoned and the crusade started for the erection of one exactly as the new one shall be.

For Contractor Burnam stated he would not deviate from the plans and specifications under any consideration, since it was the heartfelt wish of the members and donors that the strictly gothic lines be followed minutely, and this will be done.

HARDING WRITING SPEECH BY HAND

How Would You Like to Harvest Two Crops of Corn a Year as They Do in the Philippines?

No, reader, this corn was not grown by one of our local farmers! It wasn't grown in the United States, even. It was grown in the faroff Philippine Islands by Filipino schoolboys. Two fine crops of corn a year are produced in the Islands.

The Philippines are doing some wonderful things in the agricultural line. The Philippine government has fine agricultural schools throughout the islands, and the Philippine legislature, composed entirely of Filipinos, is each year making larger and larger appropriations for this important work.

The staple food of the islands is rice, but corn is coming right along in popular favor. Its use was given great impetus in the last year because of a rice

shortage. Other important Philippine crops are hemp, sugar cane, coconuts, coffee, tobacco and pineapples. Lumber is also an important industry.

There are hundreds of thousands of acres of land lying idle in the Philippines, which have a greater area of fertile land than Japan—in spite of the fact that the population of the Philippines is 11,000,000 while that of Japan is around 55,000,000. There is every reason to believe that some day the Philippines will have a population as large as that of Japan today. The Filipinos are the only Christian people in the Orient, and their young men are working night and day to prepare themselves for the responsibility of citizenship in the Philippine Republic, which they believe to be near at hand.

RICHMOND MEN HOME FROM THE EAST

Messrs. T. H. Collins and M. J. McSweeney Tell Of Instructive Vacation Trip Of Week

Mr. T. H. Collins and Mr. M. J. McSweeney have returned after a ten days' trip in the east. They report a very profitable and enjoyable convention held by the Winchester Company at New Haven, Conn. This is the first annual convention of Winchester agents.

Most of the time was spent in class rooms where lectures on goods manufactured by Winchester are made, showing that tools, cutlery, fishing tackle and flash lights would be manufactured at the same high grade process used in manufacturing guns and ammunition that Winchester Company has used for the past seventy years.

Tours were made through the gun and cartridge shops one day and another day spent going over the products. Messrs. Collins and McSweeney are thoroughly sold on the Winchester products and feel that the Richmond Welch Company has made a connection that will be of great advantage to the people of Madison county in being able to supply them with these goods at no advance in the price.

Mr. McSweeney stated that he had gained many ideas as to what is wanted here, especially by "the boys," and hinted that the company would soon be in possession of some goods that would tickle them. He is known to have been alluding to some small and pretty Japanese fishing poles and other paraphernalia in the way of a neat little gun for hunting small game and the like.

Both admitted that the trip was a rest from business cares, very enjoyable and highly instructive. They were accompanied on their trip by John W. Welch and Scott McGuire, of the Welch Department store of Berea.

RICHMOND GOT A BARGAIN IN PAYING

Same Contract At This Time Costs From \$20,000 To \$25,000 More, Contractors Say

Mayor L. P. Evans and City Engineer S. F. Creech have returned from Danville, where they attended the city council and also spent some time inspecting the streets, as well as the situation surrounding efforts to get more paved, which has been contemplated for some time. Indications are that the city of Danville will perfect plans for the paving of several streets. However, they have had a fight on hand and confronted by elements that have caused the work to be held up.

One of the bones of contention has been the adverse movement—report has it—of the board of officials of Centre College. This institution has a frontage of approximately 1,000 feet abutting on one of the principal thoroughfares under contemplated improvement, and this would represent the necessary outlay of a large sum upon the part of the college. However, at a recent meeting of the council a petition presented asking that the matter of paving be indefinitely postponed was not given favorable action and there is every indication that the street improvement will be made within a reasonable time.

It develops, however, that when the council advertised for bids for paving recently, there were a number of contractors responded, with the result that the city dads were surprised at the figures. The lowest bid was 40 cents per square yard higher than the bid which took the contract for the paving of the the Richmond streets. It, therefore shows that Richmond has secured a bargain in the matter of getting the work done at this price, since an increase of 40 cents per square yard would mean an increase in the city's paving bill from \$20,000 to \$25,000.

It was through the efforts of Mayor L. P. Evans and others that the work was secured, and they should congratulate themselves upon receiving a good contract at a low price at this time. The same contract, if made today, would represent the increased price. The contracting firm of Lampton & Burks admit as much today, but are going steadily along with the work and have shown by their disposition that everything will have to be done strictly according to plans and specifications.

Mr. Steele Shelby, of Danville, is the guest of her sister, Mrs. Harry Hanger, Jr.

FREE SCHOLARSHIPS FOR EX-SOLDIERS

President Coates of Eastern Normal Reports On New Law And Furnishes Details

There are said to be a number of ex-service men in and about Richmond who are preparing to take advantage of the free scholarships made possible by the new law and which is to be found in an extract from the Senate bill No. 26.

The self-explanatory communication received by President T. J. Coates, of Eastern Normal, deals with facts regarding the benefits derived:

"According to the provision of the above-named act, every person who was engaged in the military or nava service of the United States during the war with Germany, and who was at the time of his enlistment a resident of the state of Kentucky, is entitled to free scholarship in either the State University of the Eastern Kentucky State Normal School or the Western Kentucky State Normal School as he or she may choose for a period required to complete the course of study selected. The scholarship includes free tuition, matriculation and other fees, room rent, fuel and light and other advantages and privileges of the University or either of the State Normal Schools, but the same does not include free board. All beneficiaries of the scholarship before mentioned who continue their study for a consecutive school year or ten months are entitled to their actual traveling expenses in going to and returning from the school of their choice once each way during said year.

In order to be entitled to this free scholarship, the applicant must file his application for admission at least thirty days prior to the beginning of the semester of the school year in which he decides to enter, which application shall be accompanied by his certificate of honorable discharge, which shall be returned to him or her upon admittance.

For further information regarding the Eastern Kentucky State Normal School, write to T. J. Coates, Richmond, Ky.

Bristow Now Out Of Congressional Race

(By Associated Press)
Lexington, Ky., July 8.—Judge L. L. Bristow, of Georgetown, today withdrew as a candidate for the Republican nomination for congressman in the Seventh district, leaving A. B. Hammond, of Irvine, who was Representative Cantrell's opponent two years ago, as his party's candidate, thus avoiding the necessity of Republican participation in the state primary of this district in August.

NOTICE TO WATER CONSUMERS

Sprinkling rates have been made for use of hose while held in hand and can be used only during daylight hours.

Some consumers leave hose running and waste much water. It requires coal which costs \$12 per ton to pump water and the coal is hard to get even at that price. The income of the Water Company is not meeting its expenditures at this time and the only recourse it has is to raise rates. To be saving water by not using it except for necessary purposes is the only way to prevent a raise of rates. Water will be turned off without further notice when found running.

London, July 8.—President Wilson has accepted the League of Nations request to call a meeting of assembly of the league early in November, it was announced in the House of Commons today by Under Secretary of Foreign Affairs.

PALMER EXPENSE INVESTIGATION ISSUE

(By Associated Press)
Chicago, July 8.—The Senate committee investigating campaign expenditures will move to St. Louis tonight to take up its investigation of Palmer's campaign for the democratic nomination, it was announced today. The sessions will begin tomorrow morning.

Henry Lincoln Johnson, the negro republican national committeeman of Georgia, told the committee today that negroes who voted the republican ticket in Georgia "disappeared" and were never heard of again. The democrats paid from \$5 to \$5,000 for votes in Georgia this year and generally spent much more money than the republicans, Johnson said.

The principal witness in the investigation will be Edward W. Goltra, Democratic national committeeman of Missouri. The report that Goltra paid the expenses of 28 delegates to the state convention, which ousted Senator Reed from the national convention seat, will be investigated by a committee on which Reed was a member.

OIL CO. OFFICERS MUST PAY BIG SUM

(By Associated Press)
Louisville, July 8.—Chas. E. Stocker, J. E. Butterworth, George Montz and E. D. Noe, officers of the Pelican Oil Company, charged with making "big and easy" profits before the stockholders asked for a receiver must pay approximately \$135,000 to 200 other stockholders of the company, under a decision of Judge Wallace in chancery court today. A hundred and seventy-five stockholders live in Louisville. The decision also involves cancellation of \$100,000 worth of stock. The judgment is for approximately \$235,000, but as the defendants get credit for 100,000 shares of stock at \$1 a share turned back to the company, they have to pay only about \$135,000. The case hinged on the alleged net profit of \$10,000 on an option secured for \$50,000 by Noe on 50 acres of land in Allen county and alleged to have been equally divided between the four defendants.

Cox Is Congratulated By Anti-Saloon Leader

Atlanta, Ga., July 8.—Representative Upshaw, Georgia, former vice president of the Anti-Saloon League, yesterday sent Gov. Cox a telegram of "heartiest congratulations" on his nomination for the presidency.

Mr. Upshaw predicted victory for the party and added: "While frankly you were not my first choice, I now feel that the nation can trust at its helm a man with your great administrative record as Governor, who prays at his mother's grave for help and guidance of Almighty God."

Deportation Helped Lifting Of Embargo

(By Associated Press)

Approximately 600 Russian radicals and 300 aliens of states contiguous to Russia are now awaiting deportation.

Holdup Men Given A Quick-Fire Sentence

(By Associated Press)
Louisville, Ky., July 8.—John Waldbecker was sentenced to serve five years and John B. Weisman and Tinsley Greenwell were given eight years for the daylight holdup of a woman employee of an ice cream company of \$2,100 two weeks ago. They were taken to the Frankfort prison today.

Harry and Reuben Pearlman have returned from the Pearlman farm, where they have been enjoying camp life for some time. They will again open the camp soon when, it is understood, a number of visitors from this city and elsewhere will be entertained.

MURDER PROBABLE RESULT OF QUARREL

John Chenault, Colored, Ex-Serviceman, In Precarious Condition At Hospital

John Chenault, colored, a returned soldier, aged 26 years, is in a serious condition at the Patton A. Clay Hospital as a result of a bullet wound received night before last when in a quarrel with another negro named Mitchell. The bullet entered the back and turned, diverging downward, passing between two ribs and entering the liver. The bullet was removed today and the condition of the man is said to be such as to render recovery very improbable.

Chenault, who has been a resident of Richmond for a number of years, is said to have had a brilliant war record, having been with the first colored troops to reach France, among the last to return to the United States. He had been employed at the Soper mill for some time and was known as an energetic fellow, with many friends both among the white and colored people of the city.

Thus far he has failed to make any statement regarding the trouble. However, there is a warrant out for the arrest of Mitchell, who, it is said, has fled to Ohio. It is probable the warrant, which charges him with shooting with intent to kill, will be changed to murder, since there is said to be but little hope for the recovery of Chenault.

WANT BIDS FOR NEW SCHOOL WORK

At the meeting of the Board of Education of Richmond Wednesday morning, Architect Wischmeyer was present and brought completed copies of blue prints and specifications for the work to be done at the Madison High School this summer. The work will be under three lettings. Letting No. 1 will be the remodeling of the high school building and the excavation work in the basement. Letting No. 2 will be the installation of a heating plant. Letting No. 3 will be the erection of a gymnasium. This is to be built out of the old lumber on the ground and the lumber in the remaining part of the frame, which will be razed. The notice to bidders will be found elsewhere in this paper. Bids will be received on or before July 19, 1920. Any bidder may bid on part of the work to be done or on all of it.

JUDGE ISSUES ORDER FOR TWO CHILDREN

County Judge W. K. Price on Thursday disposed of a case that has, he says, causing him more trouble than anything else, for a period of several months. It was the granting of an order to a man sent to Richmond by James Miller to procure an order from the court and to take his two children from the home of Henry Washburn and accompany them to Cincinnati where Miller said he would meet the trio.

Miller and his wife, while residents of Richmond are reported to have experienced considerable domestic trouble, resulting in Mr. and Mrs. Washburn taking care of their children and the county was called upon for support. There was first one side and then the other presented to the court, and finally both parents of the children disappeared and Thursday was the first heard from either of them for some time. Judge Price issued the order and stated to the messenger sent here that should the Millers return to Richmond, they had better look after their children or he would issue an order of a different character.

GERMANY MUST HURRY

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. V. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health... can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

DR. THACHER'S LIVER AND BLOOD SYRUP

You're as Sick or
as Well as Your LIVER

How's your liver? Are you constipated, bilious, grouchy? Have you dizzy spells, dull headaches, bad taste in your mouth, foul breath? If so, you need Dr. Thacher's Liver and Blood Syrup; which has been knocking out troubles of your sort ever since this good old southern doctor first prescribed it away back in 1852. On sale at your drug store.

You're as Old or
as Young as Your BLOOD

If you would stay young in health as you grow older in years, have a care for your blood. Dr. Thacher's Liver and Blood Syrup puts life into your blood; purifies and enriches it; makes it taut up the whole system. Also keeps your bowels open and is a tonic and a cleanser combined. Good for the whole family. Sold at your drug store.

Andy Anton, Thompsonville, Ill., wrote Aug. 21, 1918: "I had that labored and in my testimonial for Dr. Thacher's Liver Medicine, which I have used for twelve years. Before I used it I could not do a whole day's work; because I was so weak in my kidneys, but I am now strong and healthy."

J. M. Sexton, Box 117, Ocala, Fla., wrote Jan. 22, 1919: "I used a bottle of your Dr. Thacher's Liver and Blood Syrup in my family with a four-year-old child that had had kidney trouble, caused by measles. Found it to do more good than all the medicines that I ever got hold of."

MANILA CARNIVAL BIG ATTRACTION OF FAR EAST

This is the season of the year when the Philippines become the playground for the entire orient. It is carnival season in Manila.

In 1908 the first Philippine carnival was held on historic Wallace Field in Manila in February, when the climate of the islands is at its best, and each succeeding year there has been a larger and more elaborate celebration. The 1920, or Victory Carnival, will be the greatest event of its sort ever held anywhere in the Far East.

There are commercial and government exhibits in connection with the carnival, and on no other occasion is it possible to gain at once such a comprehensive idea of the production and

development of resources of the archipelago as that which is offered the visitor at the carnival city.

In the evenings the carnival becomes the center of Philippine and oriental social activity. A huge open air auditorium serves for the elaborate nightly balls, and on its mammoth floor thousands of couples swing together to the strains of music furnished by the famous Constabulary and other military bands. Probably at no other place in the world will one see an equally impressive cosmopolitan spectacle.

The Manila visitor who can plan his trip to arrive at the Pearl of the Orient for carnival time may well deem himself fortunate.

Miss Gertrude Richardson has returned to her home in Perryville after a pleasant visit to Mr. and Mrs. T. A. Campbell.

Read this challenge—

by the Edison Laboratories, and come in to hear the phonograph which stands behind it.

We have it in our store—the Official Laboratory Model specified in the challenge.

Read the "Invitation to Talking-Machine Manufacturers." It's printed here, just as the Edison Laboratories sent it out.

The NEW EDISON

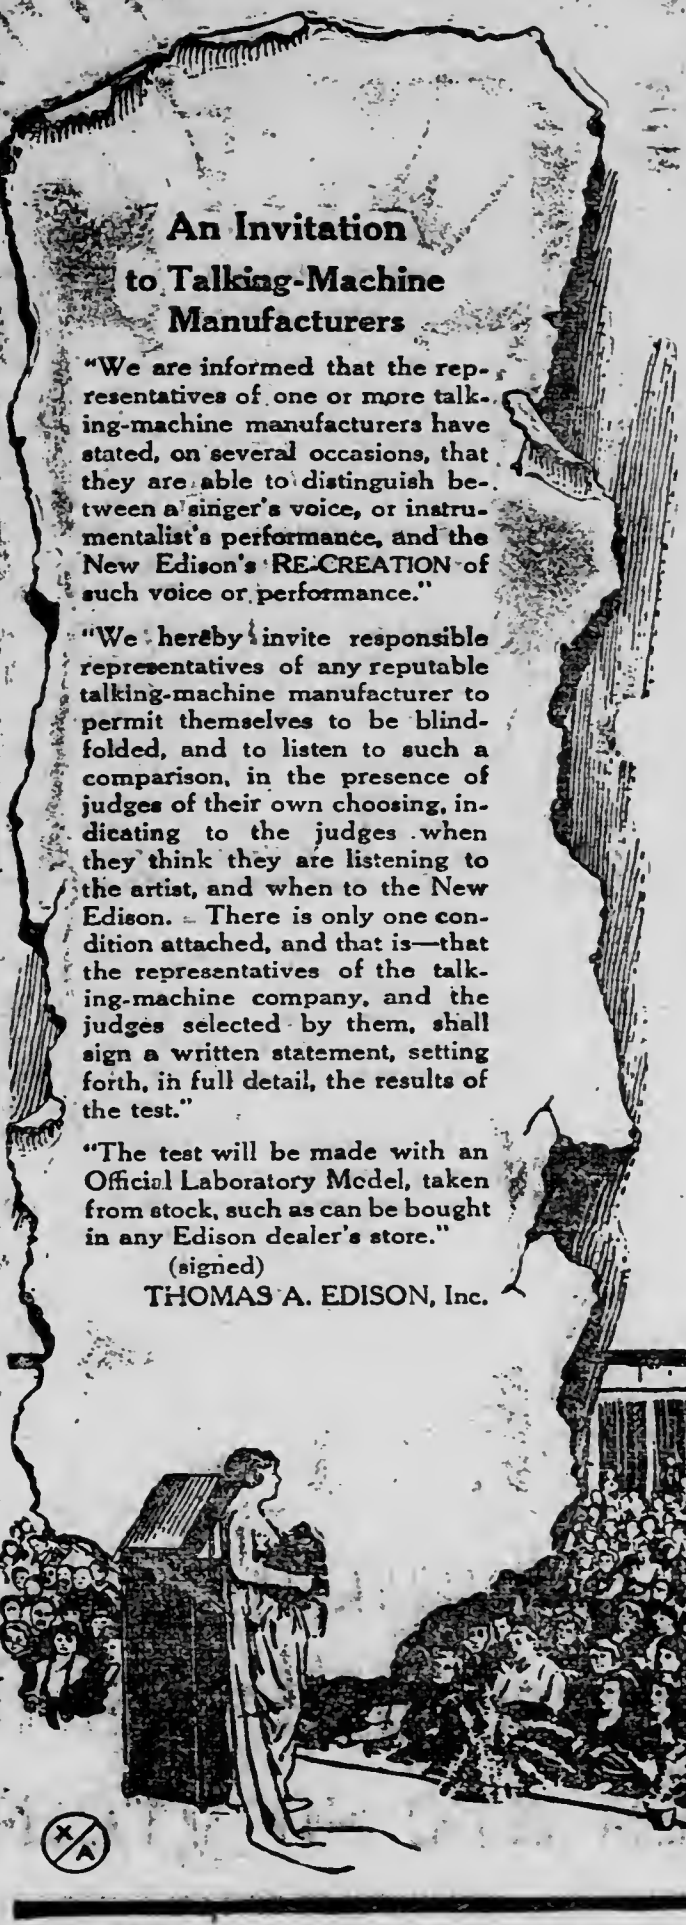

"The Phonograph with a Soul"

The Official Laboratory Model has proved its Realism in 4000 Comparison Tests, made before 3,500,000 people all over the United States and Canada. For instance, in Los Angeles recently, an audience of 1,500 people was unable to tell the difference between the living voice of Miss Marie Morrissey, world-famous contralto, and its RE-CREATION by the New Edison.

There's a way for you to test the wonderful Realism claimed for the Official Laboratory Model in this sweeping challenge. We give Mr. Edison's Realism Test. Come in and let us give it to you.

The price of the new Edison has advanced less than 15% since August 1, 1914. Mr. Edison has absorbed the bulk of the increased cost of material, skilled labor, and taxes. He is determined to keep the New Edison within the reach of everyone. But conditions may force a price-advance. Buy your New Edison now! Our Budget Plan makes it easy. It is system applied to spending. Ask about it.

MUNCY BROS.,

An Invitation to Talking-Machine Manufacturers

"We are informed that the representatives of one or more talking-machine manufacturers have stated, on several occasions, that they are able to distinguish between a singer's voice, or instrumentalist's performance, and the New Edison's RE-CREATION of such voice or performance."

"We hereby invite responsible representatives of any reputable talking-machine manufacturer to permit themselves to be blindfolded, and to listen to such a comparison, in the presence of judges of their own choosing, indicating to the judges when they think they are listening to the artist, and when to the New Edison. There is only one condition attached, and that is—that the representatives of the talking-machine company, and the judges selected by them, shall sign a written statement, setting forth, in full detail, the results of the test."

"The test will be made with an Official Laboratory Model, taken from stock, such as can be bought in any Edison dealer's store."

The work in the center of the city on Main street has been completed. This will enable the curb and gutter work to continue unhindered, and according to plans and specifications.

FREQUENT SHOWERS INSURE BIG CROPS

The greatest growing weather in years—that's the way many of the growers express their opinion of the present weather, they asserting that the hot weather is equally as beneficial and necessary as the cooler, although not so pleasant, but the rains that interspersed the dry spells are said to have been coming with sufficient frequency to make the best growing weather possible. Tobacco is growing as never before, it is said, regarding the crop in this locality. For some time the dry weather threatened some which was set out late, owing to the lack of rain and the oncoming wheat harvest. These plants are said to be taking on new life and doing well.

The wheat harvest, which will be closed within a short time, is proving to be a busy one and the quality is reported good. There is still a demand for workmen in the fields. Oats is calling for the attention of the reaper, and it is claimed that there has already been a greater quantity of alfalfa put away for the year than was cut during the entire season last year.

If you drink coffee, you might as well drink the best. Rockwood coffee is the kind to ask for. B. McKinney & Co. 162-t

Mrs. Donaldson Allman and little daughter, Virginia, of Noblesville, Indiana, are guests of Mr. and Mrs. James Allman on East Walnut street.

RUTHTON CHURCH NOTICE

Those who missed the services on the last Lord's day, at 3 p. m., missed a spiritual treat, for Bro. Matherly of the Richmond Second Christian church, certainly preached a great sermon. We are pleased to announce that old Corinth will be opened for services Sunday at 7:30 p. m. Services will be conducted by a former pastor.

RUCKER PROPERTY SOLD

Mrs. J. P. Rucker sold to Wilson Tate her residence on Third street and Woodland avenue for \$7,000. Possession will be given at once. The property was until recently occupied by City Engineer Creel and family.

Garrard County Land at Auction

Tuesday, July 20th

10 o'clock

the Farm of Hampton Sisters

LOCATION—Fisher's Ford Pike, 6 miles from Bryantsville, 8 miles from Danville, 2 miles from Danville and Lexington Pike (the new Federal Highway.) This is high class land, gently rolling, very productive, in high state of cultivation, tobacco, corn, wheat and hemp land. Reason for sale, they own another farm and must sell one. They are offering the one buyers want. This farm joins the lands of George Robinson and Frank Folger. In the same neighborhood and on the same pike as the lands of Yates Hudson, Green Bowling, I. M. Dunn, Pence Brothers and others, none of whose land can be purchased at any price. They own good land and won't sell.

IMPROVEMENTS—6-room, 2-story dwelling, one hall, one porch and excellent garden spot; new tenant house, 9-acre tobacco barn; 2 stock barns, other outbuildings. Watered by never-failing springs and ponds. Excellent fish pond. Fencing good. 11 acres in tobacco, (new sod) 40 acres in corn, 20 acres in wheat, sown to grass, 35 acres clover meadow, 25 acres clover pasture, 50 acres old blue grass sod.

Will be sold for possession January 1, 1921, and on easy terms.

Don't overlook this one.

Everybody knows what Garrard county land is and especially in this section. Look it over carefully before the sale. When you look you will be a bidder.

For further particulars and to show you the farm see the owners on the premises of W. E. Moss or R. H. Dever at my Danville office, or G. A. Swinebroad or W. A. Dickerson at Lancaster, or

\$1,000 Daily To Reduce Your Tire Cost

The Miller Tire mileage, now, discussed everywhere, is not an accident.

Over \$1,000 daily is spent in tests and inspections. Fifty inspectors guard against defects.

Every lot of tread stock is first vulcanized and tested in the laboratory.

Over 1,000 tires yearly are worn out in factory mileage tests.

Every tire is signed by maker and inspector, and both are penalized if a tire falls down.

Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation.

It is winning countless contests where a score of makes are brought into comparison.

In the factory tests—radical rear-wheel

tests—Miller cords last year averaged 15,000 miles.

The new Miller treads, in these tests, outwear the best of others by 25%.

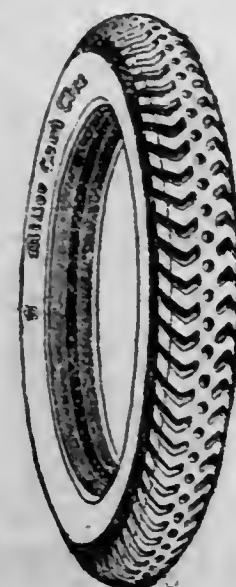

Defective Miller Tires are a rarity. Some large Miller dealers last year had not a single adjustment.

If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists.

Get one and watch it. It will give you new conceptions of a modern tire.
